

FILTRATION AND VIBRATION CONTROL

FTG, Incorporated

2017

Company Overview

FTG, Inc. is a minority-owned small business with empowered employees who are entrepreneurs. We develop or offer innovative solutions for customers who demand quality and performance in the products used on their engines and equipment. With over 40 years of mobile, marine, industrial, aviation, heavy duty parts and filtration experience, you can count on us. Located in Cerritos and Modesto in the great state of California.

Core Competencies, Markets, and Products

- Development, manufacturing, and distribution of niche product solutions for the mobile, marine, industrial, defense, aviation, and energy markets.
- Engineering and product development with partner customers.
- Filtration system solutions and related system accessories for fuel, oil, air, water, hydraulic, and gaseous fluids.
- Vibration isolation products.
- Heavy-duty parts.
- Warehousing logistics, and quality assurance (QA) services.
- Assembly, sub-assembly, and kitting in small or large volumes.

"We have worked with the FTG team for many years and appreciate their attention to detail and their fast response time"

Brian Hook, VP/GM
